Summary

I am from Dinajpur & graduated from Jahangirnagar University in 2014 with a degree in Computer Science & Engineering

I have knowledge about the web based technologies specially on .net and Javascript. From my working experience, I know how to do large scale projects & also how to maintain industry standard code. Please have a look at my github profile where you will get my code.

- NodeJS, NoSQL, Javascript, ReactJS
- C#, ASP.NET MVC-4, MSSQL

Experience

Software Developer In Synchronous ICT

Aug 2016 - Jan 2017

- Built Web Application With NodeJS, MongoDB, Socket.IO
- Testing With Mocha, Postman
- Version control system with git & Bitbucket

Junior Software Developer, Optimum Solution & Services, Dhaka

oss.com.bd

April 2016 - July 2016

- Back-end Code for accessing data
- Built an ERP Application With asp.net MVC4, MSSQL, Ajax

</> C# , asp.net, MSSQL, Ajax, Crystal Report

Skills

Focused technology	NodeJS(Express), NoSQL(MongoDB), ReactJS, AngularJS, TDD (expect), Bootstrap
Most Comfort Zone	Backend Programming, Problem Solving
Database	MongoDB, MSSQL, Mysql
Language	C#, Javascript
Tools	Linux(Ubuntu), Vim, Sublime, Atom, Microsoft Visual Studio, Codeblocks, Bower, npm, Git, Github
Others	Elastic Search

Projects & Code

1. comX

comX is an unified Telecommunication proprietary software for VOIP company. We are 6 team members build this project started from mid 2015. My responsibility was to build backend code, access database, web-socket & so on. Tools & technology we used.

- NodeJS(Express)
- MongoDB
- Socket.io
- Elastic Search
- HTML5, CSS3, Javascript
- Angular JS 1.0

2. Enterprise Resource Planning

It was an ERP system for an organization. On that system there was some module like store, invoice, account, employee attendance tracing etc. Tools & technologies we used.

- ASP.NET MVC4
 - MSSQL
 - Crystal Report
-

3. Desktop Based Application

These link are some of my Desktop Based Application. The links are solely self descriptive.
